## Qualities

- ◼ Highly Focused
- ◼ Self Motivated
- ◼ Fast Learner
- ◼ Adaptability

## Profile

Experienced **"MERN Stack Developer"** with a strong foundation in **.NET Technologies**. Proficient in building dynamic web applications using React, Node.js, Express, MongoDB and MSSQL with a track record of delivering high-quality, scalable solutions. Skilled in **Full-Stack development**, responsive design, and API integration. Committed to staying updated with the latest industry trends and delivering innovative software solutions to drive business success.

## Education

| | |
|---|---|
| **Bachelors of Science in Software Engineering.**<br>COMSATS University Islamabad, Lahore Campus | **Sep 2019 - Jul 2023** |
| **FSc Pre-Engineering**<br>Kips College, Gujranwala | **Apr 2017 - Jul 2019** |

## Employment

**Associate Software Engineer**                 **Jul 2023 - Present**
HazelSoft Abu Bakar Block Garden Town, Lahore
As an Associate Software Engineer at HazelSoft, I embarked on a dynamic journey that began with comprehensive training in .NET Core technologies and evolved into hands-on project experience. My role encompassed a wide range of responsibilities and accomplishments:

- **.NET Core Training:** Commenced my journey at HazelSoft with rigorous training in .NET Core technologies, including C#, ASP.NET, Core and the .NET Core framework. This training equipped me with a strong foundation in .NET development principles.
- **Design Patterns** Proficient in implementing design patterns, including Repository and Singleton patterns, to enhance code structure and maintainability. Knowledgeable in Generic responses, Dependency Injection, Entity Framework and database migrations.
- **Software Development** Engaged in software development activities, collaborating closely with experienced team members to design, code, and

- Building Web Projects

---

test .NET-based applications. My contributions included fixing bugs, issues, adding new features into existing application.

- **Problem Solving** Demonstrated problem-solving skills when encountering technical challenges, actively seeking guidance and working collaboratively to identify and implement effective solutions.
- **Quality Assurance** Committed to maintaining high standards of code quality and application performance. Participated in code reviews and conducted testing to ensure the reliability and robustness of software solutions.
- **Learning and Growth** Embraced a culture of continuous learning, actively seeking opportunities to expand my knowledge and skill set in .NET development. This commitment led to increased proficiency and efficiency in my work.

**MERN Stack Developer**                          Oct 2022 - Jun 2023
Beyond Technologies, DHA EME, Lahore
As a MERN Stack Developer at Beyond Technologies, I delivered top-notch web apps, elevating project success. Responsibilities and achievements:

- **Full Stack Development** Leveraged the MERN stack to design, develop, and maintain full stack web applications using React, Node, Express & MongoDb, ensuring responsiveness and optimal user experiences.
- **API Development** Designed and implement the RESTful API's using Node as a javascript runtime environment and Express as a Node framework, facilitating seamless data exchange between the front-end and back-end components.
- **Database Management** Utilized MongoDB, PostgreSQL and MSSQL to create and manage scalable databases, ensuring efficient data storage and retrieval.
- **Version Control**  Managed codebase efficiently using Git and collaborated with team members through platforms like GitHub.
- **Project Collaboration** Collaborated teams, including designers, front-end developers, and project managers, to meet project requirements and deadlines effectively.
- **Client Communication** Engaged in communication with clients to gather requirements and offer technical insights to align projects with client objectives.
- **Project Highlights:** Successfully delivered projects AutoConsult, Beaconhouse Management system, Beyond's Website and Serenity trading website, contributing to client satisfaction and positive feedback.
